My alma mater, continues to reach students, many of whom are first-generation college students and for whom college may have been out of reach due to limited resources. That is why, in times like these, it is as important as ever to rally together to support students who desire more, and who can achieve more, if just given the opportunity.

Art Shell UMES Celebrity Golf Classic & Junior Tournament

Junior Golfers,

We are pleased to invite you to this year's PGA Professional Golf Management Program Summit and Art Shell UMES Junior Tournament.

This enrichment opportunity was created for youth 6th grade through 12th. It provides students with the opportunity to explore a career in the 76 billion dollar industry and a chance to make ideas a reality. It's a chance for coaches and parents to network for a greater cause.

Our event starts on Monday, June 9th, where junior golfers & their parents from around the nation will attend educational and informational workshops about requirements for a college education, professional athletes and the careers golf management has to offer. These workshops will give students and parents the insight to help with their growing success.

The following day, Tuesday, June 10th, is tournament day; students will have a chance to compete with those who share their enthusiasm. That evening we will have our Awards Ceremony at our Red, White & Blue Celebrity Mixer, where the students will network with great & historical athletes and some of the great businesses and leaders of our awesome community.

Art Shell UMES Celebrity Golf Classic & Junior Tournament

Join us for the Red, White & Blue Celebrity Mixer as we award our junior golfers, pair our foursomes with their celebrity golfers and have a great time!

Tuesday, June 10, 2014

Richard A. Henson Center
University of Maryland Eastern Shore
Backbone Road, Princess Anne, MD
6:00 p.m.

This event is free for Junior Golfers, Adult Chaperones and Celebrity Classic players

WORKSHOPS

THE PGA & YOU: PGA PGM 2.0 PROGRAM OVERVIEW

In 2010 the PGA launched its new apprentice program, PGM 2.0 with an updated curriculum that restructures classroom instruction and testing, and requires that new qualifying courses and tests be passed prior to applying for apprenticeship and entering Level One. The PGA & You workshop offers an in depth overview of the PGA PGM 2.0 Program, reviewing the curriculum, internships, classes, and fees in addition to explaining the program's enrollment requirements and expectations.

COLLEGE SELECTION AND APPLICATION

The college selection and application process can be overwhelming, confusing, and stressful. The First Round workshop addresses your specific questions and needs, breaking this process down into clear steps that reduce stress and errors. You'll leave with a better understanding of university admission standards, the role of standardized testing, and the college application and financial aid processes.

EATING RIGHT & STAYING HEALTHY

The relationship between nutrition and athletic performance is as certain as the connection between physical training and athletic success. The Diet Differential workshop highlights the vital role nutrition plays in the improvement of every aspect of performance including the assessment of a particular result, the concept of recovery, and mental endurance; as well as the importance of substance abuse training.

NETWORKING & COLLEGIATE GOLF

Golf has its very own rules of etiquette and its very own benefits of membership. This networking and collegiate golf workshop gives students and parents a glimpse into the professional and social skills golfers build by growing relationships, staying connected and cultivating contacts on the golf courses. In addition the workshop reviews NCAA Division I Golf academic requirements.
